

**PL60RGB
VERSE**

Verse is a RGB Full color gamut shaking head beam laser Outdoor. Strong light effect and penetration, long distance, high brightness, and strong photoplasticity. Strong compatibility - Intelligent operating systems can be perfectly compatible with market control systems. High stability - patented heat dissipation technology combined with electronic temperature control ensures longevity and stability. Energy saving and environmental protection - high photoelectric conversion efficiency, 1 watt can convert 300lm brightness, and optical design allows for higher optical conductivity and lower energy consumption.

Key features:

- Tri-phosphor RGB laser 60W luminous power
- 0.35° angle
- Sky Survey Beam Light
- Full color gamut shaking head beam laser
- 350000lux@20
- High-strength aviation magnesium alloy, IP65
- 0~100%, smooth dimming without flicker
- Independent strobe, adjustable from 0.5 to 20 times/second
- Electric linear focusing

Application:

- Monument
- Building
- Entertainment

Parameters			
LED Source	3-phosphor RGB laser 60W	Dimension	239×375×651mm
Light Angle	0.35°	N.W.	22Kg
Color T°.	7500K (adjustable)	Installation	Formal, inverted, and side mounted
Illumination	350000lux@20	Housing color	Black
Power	400W @25°C	Connection	5 pin dmx Powercontrue in/out
Adjustment	Horizontal 540 ° vertical 270 °	Ip rating	IP65
Optical Lens	light outlet 160mm	T°Operativity	-20°C~40°C
Work noise	56d@25°C, at a distance of 1 meter	Gamut coverage	NTSC150%、 BT.2020
Control	DMX512, self-propelled	Cooling	Cooling: Heat sink, fan-free
Functions	0~100%, smooth dimming without flicker, Independent strobe, adjustable from 0.5 to 20 times/second , Electric linear focusing	Appearance:	High-strength aviation magnesium alloy, high temperature resistance, fire and aging resistance, wear resistance, light weight and fall resistance, all black
